The Commission granted Wisconsin Power and Light's (WP&L) request for a declaratory ruling concluding that WP&L has the exclusive right to provide electric service to the Menards premises. In addition, the Commission determined that as an alternative to the prompt removal of the Sun Prairie Utilities' (SPU) extension to the Menards premises, WP&L and SPU may negotiate for SPU to sell and WP&L to purchase those electric service improvements that SPU constructed and placed in service to serve the Menards premises. If WP&L and SPU are unable to reach an agreement regarding the sale within 60 days from the effective date of the order, the matter shall be returned to the Commission for further determination regarding the disposition of the electric service improvements and the Commission may also consider the recovery from SPU of the fees and costs incurred by WP&L, in connection with this dispute.

The Commission directed the Division of Energy Regulation to draft an order consistent with its decision.

The Commission adjourned the meeting at 11:00 a.m.
